- 6) Cheque or postal order is also accepted please make payable to Tiers and Tiaras and send to our "Contact Us" address.
- 7) Once your payment has been processed, upload your photo(s) and we'll personalise your gift.

How to set up your images

Photo / picture requirements

- 1) Email original picture straight from memory or sd card.
- 2) We have some very special restrictions on images that can be uploaded. Images must be in JPEG format to upload to the website. Any other format such as Word Documents and PDFs will not be accepted. For the best results we suggest that you make the image dimensions approximately 1000 pixels for the smallest edge of your photos.
- 3) We print images at 300DPI (Dots Per Inch) so if you are scanning the image we recommend you use this setting.
- 4) If you try to upload a photo that has a lower resolution or image size, we will still accept the image but will give you an on screen warning that the image may not print very well.

If you are having any problems uploading your images, please email info@yourvipgifts.co.uk or call 07809 447 249
